After careful review of the "definitions" sections and other relevant sections of the Zoning Ordinances, the term "Resort" was not defined. According to Webster's Dictionary, resort is defined as:

*A place that is a popular destination for vacations or recreation, or which is frequented for a particular purpose: "a seaside resort", "a health resort"* **Synonyms:** *vacation spot · tourist center · vacationland · retreat · spa*

For the purpose of a proposed use, the term "Resort" is defined as "a place for vacations and recreation". The term "place" means land and buildings. The term "vacations" means both a period of time and a destination for rest and relaxation. The term "recreation" means enjoyable and interesting activities.
